West Valley City Celebrates Grand Opening of the Promenade at Fairbourne Station

West Valley City, UT – Hundreds turned out today as West Valley City officials marked the completion of the Promenade at Fairbourne Station with a community celebration and first ever “Picnic on the Promenade” event.

West Valley City Mayor Mike Winder was joined by members of the West Valley City Council and West Valley City Community and Economic Development Department at a dedication ceremony and ribbon cutting, followed by a celebration featuring music, food and family activities highlighting the unique features of the Promenade.

“Today marks a significant milestone for West Valley City. The opening of the Promenade at Fairbourne Station is just the first of many exciting things to come as the Fairbourne Station project unfolds and becomes the premier transit-oriented development in the mountain west,” said Winder.

The Promenade is the focal point of Fairbourne Station featuring a pedestrian friendly environment with public gathering places for community activities. Other unique features of the Promenade include:

- An iconic pavilion surrounded by a water feature
- Pedestrian and bike-friendly walkways through connected to the multi-modal transit station
- Interactive water features and bridges
- An interactive scale that serves as a reminder of the historical weigh station that existed in the area previously
- “Story walls” are planned for the east end of the Promenade to pay tribute to West Valley City’s community builders of the past

The Fairbourne Station project is part of a major redevelopment effort encompassing the area from 3500 South to 3650 South and 2700 West to 3200 West in West Valley City. To find out more about the project and view our electronic press kit please log on to FairbourneStation.com. Photos of today’s event will be posted on facebook.com/FairbourneStation.
